SUBJECT INDEX

Active control

Damping of Vibration by Actively Controlled Initial Distortions, Jan Holnicki-Szulc, AS Jan. 91 p31-46.

Aerodynamic forces

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, Pei Jianping and Issam E. Harik, AS July 91 p237-255.

Drag and Aero-Torque for Convex Shells of Revolution in Low Earth Orbit, William C. Stone and Christoph Witzgall, AS Apr. 91 p145-163.

Aerospace engineering

Educating Civil Engineers to Work in Space, Anthony M. Wachinski and Stanley P. Rader, AS Oct. 91 p310-316.

MALEO: Modular Assembly in Low Earth Orbit: Alternate Strategy for Lunar Base Development, Madhu Thangavelu, AS July 91 p256-273.

Aircraft

Aircraft Ground Attitude and Stabilization for Varied Loading Conditions, C. S. Chu, AS Apr. 91 p184-193.

Algorithms

DETRANS: Efficient Algorithm for Static Analysis of Determinate Trusses, A. V. Ramesh, S. Utku and L. Y. Lu, AS July 91 p274-285.

Automation

Experience in Creating Self-Propelled Undercarriages for Planet Rovers, Alexander Kemurdjian, AS Oct. 91 p317-329.

Axisymmetry

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, Pei Jianping and Issam E. Harik, AS July 91 p237-255.

Beams

Dynamic Analysis of Truss-Beam System, Elias G. Abu-Saba, William M. McGinley and Raymond C. Montgomery, AS Oct. 91 p347-354.

Ground-Based Testing Dynamics for Prismatic Beam in Microgravity, Ralph J. Dornsife, AS Apr. 91 p165-183.

Bending

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, Pei Jianping and Issam E. Harik, AS July 91 p237-255.

Delamination Analysis for Laminated Composites. I: Fundamentals, Erian A. Armanios, AS Apr. 91 p194-215.

Blades

Optimization of Rotating Blades with Dynamic-Behavior Constraints, Ting Nung Shiau and S. J. Chang, AS Apr. 91 p127-144.

Building design

MALEO: Modular Assembly in Low Earth Orbit: Alternate Strategy for Lunar Base Development, Madhu Thangavelu, AS July 91 p256-273.

Buildings

MALEO: Modular Assembly in Low Earth Orbit: Alternate Strategy for Lunar Base Development, Madhu Thangavelu, AS July 91 p256-273.

Cargo handling

Aircraft Ground Attitude and Stabilization for Varied Loading Conditions, C. S. Chu, AS Apr. 91 p184-193.

Cargo transportation

Aircraft Ground Attitude and Stabilization for Varied Loading Conditions, C. S. Chu, AS Apr. 91 p184-193.

Civil engineers

Earthbound Civil Engineering Experience for Space Applications, Ramesh B. Malla, AS Oct. 91 p330-346.

Composite materials

Mixed Experimental-Structural Model for Interlaminar Shear Fracture Toughness, William E. Bachrach, Thomas R. Hicks, Zbigniew S. Habas and Dianne M. Granata, AS Jan. 91 p108-125.

Composite structures

Crack Arrest and Residual Strength of Composite Panels with Softening Strips, C. S. Chu, AS Jan. 91 p78-90.

Delamination Analysis for Laminated Composites. I: Fundamentals, Erian A. Armanios, AS Apr. 91 p194-215.

Delamination Analysis for Laminated Composites. II: Numerical Verification, Erian A. Armanios, AS Apr. 91 p216-235.

Compression tests

Delamination Analysis for Laminated Composites. II: Numerical Verification, Erian A. Armanios, AS Apr. 91 p216-235.

Computerized design

General Approach to Dynamic Analysis of Rotorcraft, Om P. Agrawal, AS Jan. 91 p91-107.

Conical bodies

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, Pei Jianping and Issam E. Harik, AS July 91 p237-255.

Constraints

Optimization of Rotating Blades with Dynamic-Behavior Constraints, Ting Nung Shiau and S. J. Chang, AS Apr. 91 p127-144.

Construction methods

Experimental Studies on Mechanics of Lunar Excavation, Leonhard Bernold, AS Jan. 91 p9-22.

Cracks

Crack Arrest and Residual Strength of Composite Panels with Softening Strips, C. S. Chu, AS Jan. 91 p78-90.

Curricula

Educating Civil Engineers to Work in Space, Anthony M. Wachinski and Stanley P. Rader, AS Oct. 91 p310-316.

Damping

Damping of Vibration by Actively Controlled Initial Distortions, Jan Holnicki-Szulc, AS Jan. 91 p31-46.

Deflection

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, Pei Jianping and Issam E. Harik, AS July 91 p237-255.

Deformation

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. II: Deformations, Gershon Grossman, AS Jan. 91 p67-77.

Delaminating

Delamination Analysis for Laminated Composites. I: Fundamentals, Erian A. Armanios, AS Apr. 91 p194-215.

Delamination Analysis for Laminated Composites. II: Numerical Verification, Erian A. Armanios, AS Apr. 91 p216-235.

Design

Crack Arrest and Residual Strength of Composite Panels with Softening Strips, C. S. Chu, AS Jan. 91 p78-90.

Developing countries

Global Rural Electrification: A Different Race Initiative, Raymond S. Leonard, AS Oct. 91 p290-309.

Drag

Drag and Aero-Torque for Convex Shells of Revolution in Low Earth Orbit, William C. Stone and Christoph Witzgall, AS Apr. 91 p145-163.

Dynamic analysis

General Approach to Dynamic Analysis of Rotorcraft, Om P. Agrawal, AS Jan. 91 p91-107.

Dynamics

Dynamic Analysis of Truss-Beam System, Elias G. Abu-Saba, William M. McGinley and Raymond C. Montgomery, AS Oct. 91 p347-354.

Ground-Based Testing Dynamics for Prismatic Beam in Microgravity, Ralph J. Dornsife, AS Apr. 91 p165-183.

Optimization of Rotating Blades with Dynamic-Behavior Constraints, Ting Nung Shiau and S. J. Chang, AS Apr. 91 p127-144.

Ecology

Biosphere II: Engineering of Manned, Closed Ecological Systems, William F. Dempster, AS Jan. 91 p23-30.

Ecosystems

Biosphere II: Engineering of Manned, Closed Ecological Systems, William F. Dempster, AS Jan. 91 p23-30.

Elastic foundations

Ground-Based Testing Dynamics for Prismatic Beam in Microgravity, Ralph J. Dornsife, AS Apr. 91 p165-183.

Electrification

Global Rural Electrification: A Different Race Initiative, Raymond S. Leonard, AS Oct. 91 p290-309.

Energy development

Global Rural Electrification: A Different Race Initiative, Raymond S. Leonard, AS Oct. 91 p290-309.

Engineering education

Educating Civil Engineers to Work in Space, Anthony M. Wachinski and Stanley P. Rader, AS Oct. 91 p310-316.

Environmental engineering

Biosphere II: Engineering of Manned, Closed Ecological Systems, William F. Dempster, AS Jan. 91 p23-30.

Environmental research

Biosphere II: Engineering of Manned, Closed Ecological Systems, William F. Dempster, AS Jan. 91 p23-30.

Excavation

Experimental Studies on Mechanics of Lunar Excavation, Leonhard Bernold, AS Jan. 91 p9-22.

Excitation

Optimization of Rotating Blades with Dynamic-Behavior Constraints, Ting Nung Shiau and S. J. Chang, AS Apr. 91 p127-144.

Experimentation

Experimental Studies on Mechanics of Lunar Excavation, Leonhard Bernold, AS Jan. 91 p9-22.

Mixed Experimental-Structural Model for Interlaminar Shear Fracture Toughness, William E. Bachrach, Thomas R. Hicks, Zbigniew S. Habas and Dianne M. Granata, AS Jan. 91 p108-125.

Finite difference method

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, Pei Jianping and Issam E. Harik, AS July 91 p237-255.

Flexibility

General Approach to Dynamic Analysis of Rotorcraft, Om P. Agrawal, AS Jan. 91 p91-107.

Flexure

Mixed Experimental-Structural Model for Interlaminar Shear Fracture Toughness, William E. Bachrach, Thomas R. Hicks, Zbigniew S. Habas and Dianne M. Granata, AS Jan. 91 p108-125.

Fracture strength

Mixed Experimental-Structural Model for Interlaminar Shear Fracture Toughness, William E.

Bachrach, Thomas R. Hicks, Zbigniew S. Habas and Dianne M. Granata, AS Jan. 91 p108-125.

Gravity

Ground-Based Testing Dynamics for Prismatic Beam in Microgravity, Ralph J. Dornsife, AS Apr. 91 p165-183.

Inflatable structures

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. I: Loads, Gershon Grossman, AS Jan. 91 p47-66.

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. II: Deformations, Gershon Grossman, AS Jan. 91 p67-77.

Laminates

Mixed Experimental-Structural Model for Interlaminar Shear Fracture Toughness, William E. Bachrach, Thomas R. Hicks, Zbigniew S. Habas and Dianne M. Granata, AS Jan. 91 p108-125.

Loading

DETRANS: Efficient Algorithm for Static Analysis of Determinate Trusses, A. V. Ramesh, S. Utku and L. Y. Lu, AS July 91 p274-285.

Loads

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. I: Loads, Gershon Grossman, AS Jan. 91 p47-66.

Materials testing

Crack Arrest and Residual Strength of Composite Panels with Softening Strips, C. S. Chu, AS Jan. 91 p78-90.

Mathematical models

Dynamic Analysis of Truss-Beam System, Elias G. Abu-Saba, William M. McGinley and Raymond C. Montgomery, AS Oct. 91 p347-354.

Membranes

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. I: Loads, Gershon Grossman, AS Jan. 91 p47-66.

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. II: Deformations, Gershon Grossman, AS Jan. 91 p67-77.

Model verification

Delamination Analysis for Laminated Composites. II: Numerical Verification, Erian A. Armanios, AS Apr. 91 p216-235.

Models

Delamination Analysis for Laminated Composites. I: Fundamentals, Erian A. Armanios, AS Apr. 91 p194-215.

Modular structures

MALEO: Modular Assembly in Low Earth Orbit: Alternate Strategy for Lunar Base Development, Madhu Thangavelu, AS July 91 p256-273.

Moon

Experience in Creating Self-Propelled Undercarriages for Planet Rovers, Alexander Kemurdjian, AS Oct. 91 p317-329.

Experimental Studies on Mechanics of Lunar Excavation, Leonhard Bernold, AS Jan. 91 p9-22.

MALEO: Modular Assembly in Low Earth Orbit: Alternate Strategy for Lunar Base Development, Madhu Thangavelu, AS July 91 p256-273.

Natural frequency

Optimization of Rotating Blades with Dynamic-Behavior Constraints, Ting Nung Shiau and S. J. Chang, AS Apr. 91 p127-144.

Newton-Raphson method

Aircraft Ground Attitude and Stabilization for Varied Loading Conditions, C. S. Chu, AS Apr. 91 p184-193.

Nonlinear analysis

Aircraft Ground Attitude and Stabilization for Varied Loading Conditions, C. S. Chu, AS Apr. 91 p184-193.

Numerical analysis

Drag and Aero-Torque for Convex Shells of Revolution in Low Earth Orbit, William C. Stone and Christoph Witzgall, AS Apr. 91 p145-163.

General Approach to Dynamic Analysis of Rotorcraft, Om P. Agrawal, AS Jan. 91 p91-107.

Optimal design

Optimization of Rotating Blades with Dynamic-Behavior Constraints, Ting Nung Shiau and S. J. Chang, AS Apr. 91 p127-144.

Panels

Crack Arrest and Residual Strength of Composite Panels with Softening Strips, C. S. Chu, AS Jan. 91 p78-90.

Parabolic bodies

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. I: Loads, Gershon Grossman, AS Jan. 91 p47-66.

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. II: Deformations, Gershon Grossman, AS Jan. 91 p67-77.

Powerplants

Global Rural Electrification: A Different Race Initiative, Raymond S. Leonard, AS Oct. 91 p290-309.

Professional role

Earthbound Civil Engineering Experience for Space Applications, Ramesh B. Malla, AS Oct. 91 p330-346.

Residual strength

Crack Arrest and Residual Strength of Composite Panels with Softening Strips, C. S. Chu, AS Jan. 91 p78-90.

Rigid-body dynamics

General Approach to Dynamic Analysis of Rotorcraft, Om P. Agrawal, AS Jan. 91 p91-107.

Rotation

Drag and Aero-Torque for Convex Shells of Revolution in Low Earth Orbit, William C. Stone and Christoph Witzgall, AS Apr. 91 p145-163.

General Approach to Dynamic Analysis of Rotorcraft, Om P. Agrawal, AS Jan. 91 p91-107.

Satellites

Global Rural Electrification: A Different Race Initiative, Raymond S. Leonard, AS Oct. 91 p290-309.

Shells

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, Pei Jianping and Issam E. Harik, AS July 91 p237-255.

Drag and Aero-Torque for Convex Shells of Revolution in Low Earth Orbit, William C. Stone and Christoph Witzgall, AS Apr. 91 p145-163.

Softening

Crack Arrest and Residual Strength of Composite Panels with Softening Strips, C. S. Chu, AS Jan. 91 p78-90.

Soil mechanics

Experimental Studies on Mechanics of Lunar Excavation, Leonhard Bernold, AS Jan. 91 p9-22.

Solar energy

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. I: Loads, Gershon Grossman, AS Jan. 91 p47-66.

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. II: Deformations, Gershon Grossman, AS Jan. 91 p67-77.

Space exploration

Earthbound Civil Engineering Experience for Space Applications, Ramesh B. Malla, AS Oct. 91 p330-346.

Educating Civil Engineers to Work in Space, Anthony M. Wachinski and Stanley P. Rader, AS Oct. 91 p310-316.

Experience in Creating Self-Propelled Undercarriages for Planet Rovers, Alexander Kemurdjian, AS Oct. 91 p317-329.

Global Rural Electrification: A Different Race Initiative, Raymond S. Leonard, AS Oct. 91 p290-309.

Space shuttle orbiter

Drag and Aero-Torque for Convex Shells of Revolution in Low Earth Orbit, William C. Stone and Christoph Witzgall, AS Apr. 91 p145-163.

Space structures

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. I: Loads, Gershon Grossman, AS Jan. 91 p47-66.

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. II: Deformations, Gershon Grossman, AS Jan. 91 p67-77.

Dynamic Analysis of Truss-Beam System, Elias G. Abu-Saba, William M. McGinley and Raymond C. Montgomery, AS Oct. 91 p347-354.

Earthbound Civil Engineering Experience for Space Applications, Ramesh B. Malla, AS Oct. 91 p330-346.

Ground-Based Testing Dynamics for Prismatic Beam in Microgravity, Ralph J. Dornsife, AS Apr. 91 p165-183.

Spacecraft

Earthbound Civil Engineering Experience for Space Applications, Ramesh B. Malla, AS Oct. 91 p330-346.

MALEO: Modular Assembly in Low Earth Orbit: Alternate Strategy for Lunar Base Development, Madhu Thangavelu, AS July 91 p256-273.

Stability

Aircraft Ground Attitude and Stabilization for Varied Loading Conditions, C. S. Chu, AS Apr. 91 p184-193.

Static structural analysis

DETRANS: Efficient Algorithm for Static Analysis of Determinate Trusses, A. V. Ramesh, S. Utku and L. Y. Lu, AS July 91 p274-285.

Stress

Axisymmetric Pressures and Thermal Gradients in Conical Missile Tips, Pei Jianping and Issam E. Harik, AS July 91 p237-255.

Delamination Analysis for Laminated Composites. I: Fundamentals, Erian A. Armanios, AS Apr. 91 p194-215.

Delamination Analysis for Laminated Composites. II: Numerical Verification, Erian A. Armanios, AS Apr. 91 p216-235.

Structural analysis

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. I: Loads, Gershon Grossman, AS Jan. 91 p47-66.

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. II: Deformations, Gershon Grossman, AS Jan. 91 p67-77.

Structural control

Damping of Vibration by Actively Controlled Initial Distortions, Jan Holnicki-Szulc, AS Jan. 91 p31-46.

Structural elements

Dynamic Analysis of Truss-Beam System, Elias G. Abu-Saba, William M. McGinley and Raymond C. Montgomery, AS Oct. 91 p347-354.

Structural models

Mixed Experimental-Structural Model for Interlaminar Shear Fracture Toughness, William E. Bachrach, Thomas R. Hicks, Zbigniew S. Habas and Dianne M. Granata, AS Jan. 91 p108-125.

Supports

Analysis of Rim Supports for Off-Axis Inflatable Reflectors. I: Loads, Gershon Grossman, AS Jan. 91 p47-66.

Systems

General Approach to Dynamic Analysis of Rotorcraft, Om P. Agrawal, AS Jan. 91 p91-107.

Testing

Ground-Based Testing Dynamics for Prismatic Beam in Microgravity, Ralph J. Dornsife, AS Apr. 91 p165-183.

Torsion

Drag and Aero-Torque for Convex Shells of Revolution in Low Earth Orbit, William C. Stone and Christoph Witzgall, AS Apr. 91 p145-163.

Transportation engineering

Experience in Creating Self-Propelled Undercarriages for Planet Rovers, Alexander Kemurdjian, AS Oct. 91 p317-329.

Trusses

DETRANS: Efficient Algorithm for Static Analysis of Determinate Trusses, A. V. Ramesh, S. Utku and L. Y. Lu, AS July 91 p274-285.

Dynamic Analysis of Truss-Beam System, Elias G. Abu-Saba, William M. McGinley and Raymond C. Montgomery, AS Oct. 91 p347-354.

Undergraduate study

Educating Civil Engineers to Work in Space, Anthony M. Wachinski and Stanley P. Rader, AS Oct. 91 p310-316.

Vehicles

Experience in Creating Self-Propelled Undercarriages for Planet Rovers, Alexander Kemurdjian, AS Oct. 91 p317-329.

Vibration

Damping of Vibration by Actively Controlled Initial Distortions, Jan Holnicki-Szulc, AS Jan. 91 p31-46.

AUTHOR INDEX
